

## Metabolic Syndrome and Diabetes

Module One: Introduction to Metabolic Syndrome and Diabetes

Module Two: Anatomy and Physiology

Module Three: Metabolic Syndrome

Module Four: Type 2 Diabetes

Module Five: Pathophysiology and Mechanisms of Disease

Module Six: Management of Metabolic Syndrome and Type 2 Diabetes

## Table of Contents Module One

Learning Objectives	1
Table of Contents	2
Pre-Test	3
Pre-Test Answer Key	4
Welcome	5
<b>SECTION ONE: About This Learning System</b>	<b>6</b>
Metabolic Syndrome and Diabetes Learning System	7
Modular Component – Overview	8
Module Tools	11
Emphasis on Vascular Health	13
<b>SECTION TWO: Metabolic Syndrome and Diabetes Overview</b>	<b>14</b>
Metabolic Syndrome	15
Diabetes	16
Relationship Between Metabolic Syndrome and Diabetes	17
Section Summary	18
<b>SECTION THREE: Incidence and Impact</b>	<b>20</b>
Diabetes	21
The Disease Burden	22
Economic Impact	23
Section Summary	24
<b>SECTION FOUR: Patient Profiles</b>	<b>26</b>
Impact on the Patient	27
Meet the Patients	28
Post-Test	30
Post-Test Answer Key	31
References	32

## Table of Contents Module Two

Learning Objectives	1
Table of Contents	2
Pre-Test	4
Pre-Test Answer Key	5
<b>SECTION ONE: Introduction</b>	<b>6</b>
Module Overview	7
A Note on Homeostasis	8
<b>SECTION TWO: The Gastrointestinal System</b>	<b>10</b>
Introduction	11
Functions of the GI System	13
Food Digestion – An Overview	14
Nutrients	16
Lipids – Primer	17
Carbohydrate, Lipid and Protein Metabolism	20
Glucose	21
Endocrine System – Primer	23
The Pancreas	25
Insulin	26
Glucagon	30
Blood Glucose Regulation	31
Incretins	32
Section Summary	34
<b>SECTION THREE: The Cardiovascular System</b>	<b>36</b>
Cardiovascular System – Overview	37
Circulations	43
Structure of the Heart	48
Blood Flow Through the Heart	52
Cardiac Cycle	53
Blood Pressure	55
Regulation of Blood Pressure	57
Section Summary	58

## Table of Contents Module Two (continued)

SECTION FOUR: Renal Anatomy and Physiology	60
Introduction	61
Kidney Anatomy	62
Renal Circulation	63
The Nephron	64
Blood Filtration By the Nephron	65
Adrenal Glands	67
The Renin-Angiotensin-Aldosterone System (RAAS)	68
Section Summary	70
Post-Test	71
Post-Test Answer Key	74
References	77
Appendices	78

## Table of Contents Module Three

Learning Objectives	1
Table of Contents	2
Pre-Test	3
Pre-Test Answer Key	5
<b>SECTION ONE: Introduction</b>	<b>8</b>
Module Overview	9
<b>SECTION TWO: What is Metabolic Syndrome?</b>	<b>10</b>
Introduction	11
Brief History	13
Definitions	14
Relationship between Metabolic Syndrome and Type 2 Diabetes	16
Section Summary	17
<b>SECTION THREE: Risk Factors</b>	<b>18</b>
Introduction to Risk Factors	19
Risk Factors for Metabolic Syndrome	19
Metabolic Risk Factors for Vascular Disease	24
Section Summary	25
<b>SECTION FOUR: Signs of Metabolic Syndrome</b>	<b>26</b>
What are the Signs of Metabolic Syndrome?	27
Section Summary	30
<b>SECTION FIVE: Diagnosis</b>	<b>32</b>
Diagnosis	33
Monitoring	39
Section Summary	40
<b>Post-Test</b>	<b>41</b>
<b>Post-Test Answer Key</b>	<b>43</b>
<b>References</b>	<b>45</b>

## Table of Contents Module Four

Learning Objectives	1
Table of Contents	2
Pre-Test	3
Pre-Test Answer Key	5
Section One: Introduction	8
Module Overview	9
Section Two: What is Diabetes?	10
Definition	11
Classification of Diabetes	11
Section Summary	19
Section Three: Risk Factors	20
Risk Factors	21
Section Summary	26
Section Four: Signs and Symptoms	28
Hyperglycemia Symptoms	29
Hyperglycemia Signs	32
Hypoglycemia	33
Section Summary	34
Section Five: Screening, Diagnosis, and Monitoring	36
Screening for Type 2 Diabetes	37
Diabetes Diagnostic Tools	39
Diagnostic Criteria for Diabetes	41
Monitoring Tools	43
Section Summary	48
Post-Test	49
Post-Test Answer Key	51
References	53
Appendix	56

## Table of Contents Module Five

Learning Objectives	1
Table of Contents	2
Pre-Test	3
Pre-Test Answer Key	5
Section One: Introduction	8
Welcome	9
Section Two: The Relationship Between Metabolic Syndrome, Type 2 Diabetes	10
Domino Effect	11
Section Summary	13
Section Three: Pathophysiology of Insulin Resistance	14
The Common Factor	15
Insulin Resistance and Obesity	17
Insulin Resistance and Vascular Disease	17
Section Summary	19
Section Four: Macrovascular Complications	20
Overview	21
Cardiovascular Disease	21
Cerebrovascular Disease	25
Peripheral Vascular Disease	30
Section Summary	34
Section Five: Microvascular Complications	36
Overview	37
Retinopathy	37
Nephropathy	40
Peripheral Neuropathy	42
Section Summary	46
Post-Test	47
Post-Test Answer Key	49
References	51

## Table of Contents Module Six

Learning Objectives	1
Table of Contents	2
Pre-Test	4
Pre-Test Answer Key	6
<b>SECTION ONE: Overview</b>	<b>8</b>
Introduction	9
Review of the Relationship between Metabolic Syndrome and Type 2 Diabetes	10
<b>SECTION TWO: Treating Modifiable Risk Factors to Prevent Disease</b>	<b>12</b>
Lifestyle Changes	13
Section Summary	16
<b>SECTION THREE: Management of Metabolic Syndrome</b>	<b>18</b>
Overview	19
Treatment of Abdominal Obesity	20
Treatment of Dyslipidemia	20
Treatment of Hypertension	24
Treatment of Hyperglycemia	28
Section Summary	29
<b>SECTION FOUR: Management of Type 2 Diabetes</b>	<b>30</b>
The Diabetes Care Team	31
The Diabetes Care Team Members	31
Overview	35
Treatment of Obesity	36
Treatment of Hyperglycemia	38
Treatment of Dyslipidemia	50
Treatment of Hypertension	54
Section Summary	58

## Table of Contents Module Six (continued)

SECTION FIVE: Role of the Pharmaceutical Community	60
Introduction	61
Pharmaceutical Market in Canada	62
Pharmaceutical and Physician Perspective	64
Section Summary	70
Post-Test	71
Post-Test Answer Key	73
References	75
Appendices	80
